Lance Keay

Senior full-stack developer and DevOps engineer, contract

lance@lancekeay.example | lancekeay.com

SAMPLE CV LAYOUT: replace with Lance Keay’s own CV before publishing.

Profile

I work across the whole path a change takes: the code, the review, the build, the deploy and the dashboard someone looks at when it goes wrong.

Skills

Application code: TypeScript, Node.js, Python, PostgreSQL

Delivery and infrastructure: Docker, Kubernetes, GitHub Actions, Ansible

Operations: Grafana, AWS cost reviews

AI tooling: self-hosted models (Ollama), agent pipelines, model cost tracking

Experience summary

Full-stack and DevOps contractor (ongoing): web applications, delivery pipelines, Kubernetes platforms and cloud cost work.

Platform and pipeline rebuilds: CI with tested rollbacks, container images, infrastructure as code.

AI tools brought in-house: choosing, hosting and measuring models and agents.

Writer, lancekeay.com: reviews of AI and self-hosted tools; monthly AI token market report.

Employer names and dates to be added from Lance’s own CV.
