Lance Keay

Senior full-stack developer and DevOps engineer hello@lancekeay.com lancekeay.com

Sample CV for the site redesign. Replace with Lance Keay's own details.

Profile

Senior full-stack developer and DevOps engineer. I work across the path from a pull request to a running service: application code in TypeScript, Python and Go, and the Terraform, pipelines and runbooks behind it. Contract engagements of three to twelve months, embedded in product teams.

Skills

Application development: TypeScript, Node.js, React, Python (Django, FastAPI), Go, PostgreSQL, Redis
Infrastructure: Linux, Docker, Kubernetes, Helm, Terraform, Ansible, Proxmox
Delivery: GitHub Actions, GitLab CI, blue-green and canary releases
Cloud: AWS, Azure, Hetzner, on-premises hardware
Observability: Prometheus, Grafana, Loki, OpenTelemetry
AI tooling: Local models, LLM gateways and cost controls, coding agents in real codebases

Experience

Contract DevOps and platform engineer, 2023 to now
Container platform migrations, CI/CD rebuilds and cloud cost reviews for product teams.

Lead full-stack developer, 2019 to 2023
Led a small team building a customer-facing web platform; owned its move to Kubernetes.

Full-stack developer, 2015 to 2019
Web applications and internal tools; owned the deployment pipeline.

Developer and systems administrator, Before 2015
Linux servers, PHP, first automated deploys.
